A Vote for
Knight
is a vote for:

Voter Choice

Oklahoma has the worst Ballot Access Laws in the US. Zachary will work to ease the burden on Independent voters by reducing the number of signatures needed to form new parties.

Ethical Government

Zachary will not accept anything of value from lobbyists and special interests and will work to create a 'No Gift List' to provide voters greater confidence in their elected officials.

Open Government

Currently the State Legislature is the only government body not held to the state's Open Records Act. Zachary will work to open up the legislative proceedings to public accountability.

Economic Freedom

Three of the largest economies in the US are the states of Texas, Florida and Washington. These States have no income tax and rely primarily on a sales tax for income. Zachary will work to bring this policy and other successful tax and economic policies to Oklahoma.

Fiscal Responsibility

The state wastes millions of dollars through unnecessary agencies, administration and bureaucracy. Zachary will work to cut those areas that are shown to provide no benefit to the people of Oklahoma.

Property Rights

Oklahoma has many laws that put Oklahoma property owners at risk of losing their homes and other property through no fault of their own. Zachary will work to change laws such as Civil Forfeiture and Eminent Domain to protect property owners.
